

Solar Energy

Re-Engaging the Public & Creating
Interest in Solar

NASEO Annual Meeting
October 2, 2024

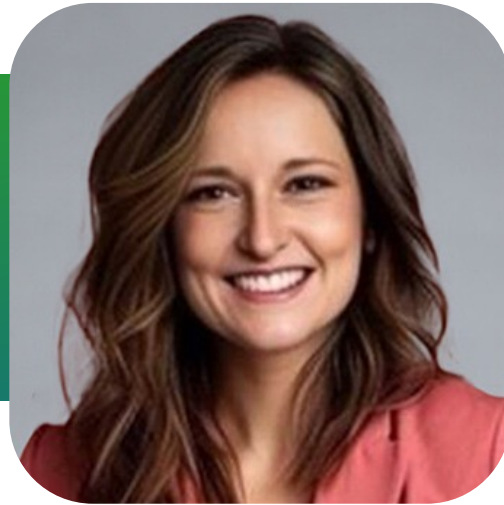

Fireside Chat

Dr. Andrew McAllister
Commissioner

California Energy Commission

Sydney Gilliam, J.D., PMP
Energy Practice Leader

IEM

Despite nearly a half century of public policy efforts, **solar energy initiatives have typically only served those who have the means to bear the cost.**

The success of new solar energy programs will depend on effective strategies that are **designed to encourage participation from Americans who stand to benefit the most.**

Key Points **For Review**

Consumer
Protections

State Energy
Office &
Recipient Roles

Long-term
Goals &
Resiliency

Solar for All creates an opportunity for recipients to implement regulations and protections to promote, **accessible, compliant, and cost-effective solar energy.**
